## Mixer Maintenance 2009-2010 Training Schedule

### **Mixer Maintenance Courses**

Register online by November 30, 2009 and save **\$50** on each tuition.

#### **Get Ahead of the Learning Curve**

When it comes to expert instruction in mixer maintenance, troubleshooting and repair, our training program is in a class by itself. Your service technicians will get the in-depth, hands on training they need to maximize your McNeilus mixer fleet's productivity. And, you'll get the improved profitability that comes with keeping your vehicles operating at peak performance and efficiency.

Classes include practical instruction on all aspects of McNeilus mixer systems, with hands-on training in the shop wherever possible. Class size is limited to just 12 students to assure personalized attention and to create an optimal learning environment.

#### **Act Quickly and Save \$50**

Register online by November 30, 2009 and you'll receive \$50 off each tuition.

#### **We cover the topics your technicians need to know about:**

- ✓ Vehicle Configuration
- ✓ Troubleshooting
- ✓ Schematic Reading
- ✓ Circuits
- ✓ Bridgemaster System
- ✓ Electrical, Hydraulic and Air Theory
- ✓ System Components and Functions
- ✓ Chute Controls
- ✓ Auxiliary Air Systems
- ✓ Drum Drive System
- ✓ Preventative Maintenance

March 9-11, 2010

Do you own an Oshkosh® S-Series™ front discharge mixer? Check out the training opportunities at

[www.oshkoshcorporation.com/training](http://www.oshkoshcorporation.com/training)

---

## NEW!

In addition to a student guide and vehicle system schematics, all students will receive a cd containing vendor and vehicle resources, class materials and references.

---

### Registration is EASY

We encourage you to register online by visiting [www.McNeilusConcrete.com/training](http://www.McNeilusConcrete.com/training). From there you can register for a course and review class schedules and curriculum outlines. The website will be kept current with training opportunities as they are scheduled. If you would like a registration form faxed to you, please contact the Oshkosh Training Center.

Because of our many customers, enrollment in these classes will fill quickly. Please register as soon as possible. Verbal registrations can not be held for more than 24 hours without receipt of a formal registration.

### Course Logistics

The class is 2 ½ days in length. Class is held from 8:00 AM to 4:00 PM on the first two days of class. The last day of class runs from 8:00 AM until noon.

### Tuition & Payment

**2 1/2-Day Mixer Maintenance: \$750.00**

**Classes at Dodge Center, MN: \$700.00**

*All registrations received before November 30, 2009 will automatically receive the \$50 promotional discount.*

Expenses, such as airfare, hotel, and meals not mentioned previously are the responsibility of individual students.

**NOTE: Please do not purchase airline tickets until final confirmation is received 30 days prior to the start of training.**

To ensure your training seat, tuition must be paid at the time of registration by credit card, check, or Purchase Order / invoice. Please indicate your payment method on the registration form. Checks can be sent to the address listed below.

### Cancellation

In order for the Training Center to provide cost-effective training, we require that you cancel ten business days prior to the training. There is a \$100 cancellation fee if the Training Center is not notified ten business days prior to the training.
