

S-Series 2009-2010 Training Schedule

Five-Day S-Series Maintenance Course

Save \$50 on Tuition by Registering before November 30, 2009!

Get into the classes early! All registrations received before November 30, 2009 will automatically receive the \$50 promotional discount.

Covering the Topics Your Technicians Need to Know

The course will start with a complete vehicle familiarization, and then quickly move to in-depth hands-on troubleshooting training for the transfer case, front axle, air brakes, hydraulics, chassis electrical and load span. It'll also cover Cummins, CAT and Detroit engines; Allison transmission, ABS, and interfaces, including Actia and EP Control; and terminals and connectors.

You Said It - We Listened - More is Better!

Our curriculum is revised for the 2009-2010 training season to include even more hands-on learning and troubleshooting time. Streamlined information gets you the foundations you need in order to get to the problem.

The S-Series Maintenance course is now a five-day course. The new course is a combination of the former S-Series Basic Maintenance and Advanced Electronics courses.

The five-day S-Series Maintenance courses will take place on the following dates:

- ➔ **Salt Lake City, Utah**
January 11-15, 2010
- ➔ **East Granby, Connecticut**
January 18-22, 2010
- ➔ **Lititz, Pennsylvania**
February 15-19, 2010
- ➔ **Fairfield, Ohio**
February 22-26, 2010

Make It Your Own

Private and customized classes are available. Hold a class at your company's location, or one of our service centers. Please contact the Training Center for a quotation and scheduling.

Oshkosh / McNeilus service and sales personnel will be on hand to answer questions and provide service advice at the Western Regional Service Center (SLC) and New England Parts and Service Center (CT). Also visit www.McneilusCompanies.com for McNeilus Rear Discharge Mixer Training.

Registration

We encourage you to register online by visiting www.OshkoshCorporation.com/training. From there you can register for a course, review class schedules and curriculum outlines, and find information on the Training Center. Our website will be kept current with training opportunities as they are scheduled.

If you would like a registration form faxed to you, please contact the Training Center.

Because of our many customers, enrollment in these classes will fill quickly. Please register as soon as possible. Verbal registrations will not be held for more than 24 hours without receipt of a formal registration.

Course Logistics

Classes begin at 8:00 AM and finish around 4:00 PM each day.

Tuition & Payment

5-Day Maintenance: \$1,200.00

Tuition includes student manuals and schematics.

Lunch is provided on class days.

Expenses, such as airfare, hotel, and meals not mentioned previously are the responsibility of individual students unless these items are included in the vehicle sale. If factory training is included as a part of the vehicle sale, the tuition fee and expenses may be waived.

NOTE: Please do not purchase airline tickets until final confirmation is received 30 days prior to the start of training.

To ensure your training seat, tuition must be paid at the time of registration by credit card, check, or Purchase Order / invoice. Please indicate your payment method on the registration form. Checks can be sent to the address listed below.

Cancellation

In order for the Training Center to provide cost-effective training, we require that you cancel ten business days prior to the training. There is a \$100 cancellation fee if the Training Center is not notified ten business days prior to the training.
